Claim Business was Injured by Boycotting Their Goods and Strike of Union Men in Their Employ.

Bridgeport, Conn., Sept. 12.—In the United States district court to day D. E. Loewe & Co., Danbury hat manufacturers, instituted suits against national officers of the American Federation of Labor, national officers of the United Hatters of North America and against 250 members of these organization, residents of Danbury, who were formerly in the employ of the plaintiffs. The plaintiffs allege because they refused to employ only union labor in their factory, upon demand of the union in 1901, their goods were boycotted, both in the United States and Canada, and in 1902 union men employed by the plaintiffs were called on a strike. Damages of $240,000 are asked for under the Sherman anti-trust law.

A similar suit was instituted in the superior court at Fairfield county against the same parties. In this suit damages of $100,000 are claimed and an injunction restraining defendants from prosecuting the boycott is sought.

Washington, Sept. 12.—Rear Admiral Francis A. Cook, who commanded the Brooklyn at Santiago, was retired to day after forty years service, his own application.

The navy department issued an order declaring the "Star Spangled Banner," the national anthem, and directing whenever that composition is played all officers and men shall stand at attention unless they are engaged in duty that will not permit them to do so. RAIDED BY ROBBERS

Sioux Falls, S. D., Sept. 12.—Valley Springs, thirteen miles east of Sioux Falls, was raided between 2 and 3 o'clock this morning by a band of robbers. Residents of the town were aroused by a series of explosions. When they appeared on the street to ascertain the cause they discovered the town was picketed by seven or eight armed men, who drove residents from the streets on pain of instant death if they attempted to interfere with the robbers.

The Minnehaha county bank was the object of the desperadoes, who blew open the safe and secured $8,000 or $10,000 in cash. During the robbery one of the pickets fired at a citizen, but owing to shortage of firearms, citizens were compelled to keep in the background until the robbers had completed their work and left town.

HAD NARROW ESCAPE

Norfolk, Va., Sept. 12.—The explosion of a barrel of alcohol on the superstructure deck of the cruiser Olympia in dry dock at the Norfolk navy yard, to night killed two men, severely injured several others and set fire to the ship. The master-at-arms of the vessel is missing. The dead: Corporal Yerkes, United States marine corps; white seaman, unknown.

The explosion, according to witnesses, followed the theft of a barrel of alcohol by a party of sailors. The barrel, it is said, was taken from one of the storehouses of the yard and removed to the dock near the Olympia. There it was opened. Shipkeeper Daley detected the odor of the spirits and summoned the master-at-arms. The barrel was discovered and taken aboard the Olympia and placed on the hurricane deck. Yerkes and the unknown sailor went to the barrel and one struck a match. An explosion followed and both men were enveloped in the flaming liquid. They perished before a hand could be raised to save them. The ship at once caught fire and the blaze for a while was stubborn, but finally was extinguished. In the excitement sailors concerned in the affair escaped and parties were sent out to arrest them. It is not known what became of the master-at-arms.

GERMAN ARMY MANEUVERS

SPECTATORS DELIGHTED BY THE SPECTACLE.

The Function Attended by the Emperor and Other Members of Royalty—Take Part in Parades and Banquets.

Weissenfels-on-the-Saal, Prussia, Sept. 12.—Army maneuvers were this year more than ever a vast spectacle affording a gorgeous background for Emperor William's massed cavalry attacks and storming of batteries. The emperor turned the working out of the day's strategical problem prepared by the general staff into a glorified shambattle that delighted many thousands of spectators assembled on elevated ground. The maneuvers were preceded by four parades, four principal banquets and state entry of the emperor and empress into Haale, for the purpose of attending the ceremony of consecrating a church. All those functions were attended by the various sovereigns of minor German states, like the king of Saxony, grand dukes of Oldenburg and Saxe-Weimer and duke of Saxe-Coburg and Geotha, and foreign princess, such as duke of Aosta, of Italy and duke of Teck from England. These distinguished personages accompanied the emperor everywhere and formed a brilliant picture where they were grouped about him. The value of the maneuvers, as usual, is again seriously discussed. Everyone appears to agree they have the political result of stimulating interest in the army and of promoting a martial spirit among Germans.

SNOW STORM.

Red Lodge, Mont., Sept. 12.—A heavy snow storm swept over southern Montana last night. Everything was covered with a layer of snow, eight inches deep. Considerable rgain still standing is probably ruined. The storm covered a wide area. It is reported two feet of snow fell near Prizer, Mont.

Minister Conger cables the state department this fact and the matter was referred to Secretary ay at the secretary's summer home in New Hampshire for consideration. The state department is apparently not concerned over Russia's reqpest, as it is pointed out the province is a small one and postponements asked is only for a short time.

CANNON SPEAKS.

Chicago, Sept. 12.—Congressman Cannon spoke before the Hamilton club of this city to night, but carefully avoided committing himself on national questions which are likely to become issues in the next congress. Our currency, moreover, is better than any other country in the world and we will keep it good." Cannon also spoke against lynching.

KENTUCKY REPUBLICANS

Munfordville, Ky., Sept. 12.—The state Republican campaign was opened to day. One of the principal speakers was General Buckner, former governor of Kentucky and nominee for vice president by Gold Democrats in 1896. Buckner said:

"I have been styled a 'Former Democrat'; by this is doubtless meant a Democrat like those who in former days embraced the political doctrines of Jefferson, Jackson, Tilden and Cleveland. They were former Democtas, who believed in a republic where there should be equal rights to all and exclusive privileges to none; not as with modern Democrats, that there should be exclusive privileges to a self-constituted oligarchy of machine politicians and denial of all rights to the masses of the people. 'Former Democrats' who cherished the sound principles of public policy and could defend them with cognent reasons; not modern Democrats, whose only logic in defense of their devious ways is coarse and indecent vituperation of those who would not, like themselves, discard the principles of their party, and, in hope of personal advancement, betray the best interests of their country."

ALCOHOL EXPLOSION

Two Men Killed and Several Injured on Board Cruiser Olympia

Chicago, Sept. 12.—Ten workmen employed by the Morris Packing company were injured this afternoon by the collapse of a runway on which they were standing. A number of steers had fallen down on the first floor of the runway and animals behind were crowding in and trampling them to death. Men rushed from their work and climbed on the upper floor of the runway to watch the struggles of the steers. The floor upon which they were standing gave way and let them down on top of the lower part of the runway, where they narrowly escaped being thrown among the struggling steers. Had this happened not a man could have escaped with his life. All of them were badly bruised and some sustained severe cuts on the head, but all will recover. A number of steers were trampled and gored to death in the struggle in the first floor of the runway.

AUTOMGBILE ACCIDENT.

Milwaukee, Sept. 12.—Frank Day, of Detriot, was killed in an automobile accident at the state fair park this afternoon while riding in a race. The machine ran into the fence.

Day had almost finished four miles of the five and had increased the speed to a 60-mile gait, when he evidently seemed to have lost control of the machine and drove dangerously near the fence. An object detached itself from the vehicle and sailed twenty feet in the air and it was supposed the chaeur had been thrown over the fence. Spectators were almost panic stricken as the machine dashed into the fence and broke down posts and bars before coming to a halt. Four feet away from it on the ground the figure of Day lay motionless. He died in fifteen minutes.

REBELLIOUS MIMNERS.

Kansas City, Mo., Sept. 12.—President Mitchell, having failed to induce the striking coal miners at Novinger, Mo., to return to work, can do nothing further towards settling the difference among the union miners until action has been taken by the miners' convention, which will meet here to morrow. THE SITUATION ALARMING

REPORTS OF WHOLESALE MASSACRE RECEIVED

Entire Bulgarian Population of Two Districts Murdered—Fearful Descriptions of Sights Seen are Given.

Sofia, Sept. 12.—With the arrival of new and sensational reports of wholesale massacre of Christian in Macedonia, the situation here is hourly becoming more alarming. If the latest messages, which state 60,000 Bulgarians were slaughtered in the districts of Okrida and Leren shall be confirmed, no doubt exists, the government will be forced to order mobilization of the army immediately.

According to information brought by a courier a force of Albanians, assisted by Turkish regular forces acting under orders direct from Yildizkiosk, massacred the entire Bulgarian Christian population of Okirad and Loren districts. Fearful descriptions are given of sights seen there, soldiers slaughtering men, women and children in every direction, displaying barbarism never before witnessed. The number of killed was not stated in the courier's dispatches, but according to reports from other sources the total will reach 60,000. Official cricles are without information regarding the reported massacre, but, in view of the character of latest advices from Macedonia, it is feared the news is true.

The Bulgarian government appears firmly resolved to avoid giving Turkey the slightest pretext for declaring hostilities and is doing the utmost to retrain the war fever. The situation, however, is rapidly becoming worse and popular excitement is increasing. An engagement is reported to have occurred between insurgents and Turkish troops at Suchindol, in which not a single revolutionist was killed, while the Turks lost heavily.

Telegrams from Burgas say the Bulgarian population is fast disappearing from the district of Losengrade and that every one unable to escape to the Bulgarian frontier is killed. Fugitives who arrived at Burgas report that two men, one aged 100 years, and the other 85, were impaled by Turks in the course of their search of houses of residents. The war office here is greatly concerned over the increasing number of deserters who go to join the insurgents.

Sofia, Sept. 12.—The council of ministers, it is said, have decided to mobilize the first and second army divisions, whose headquarters are at Sofia and Philopolis. Alarming rumors are current of further wholesale massacres of Bulgarians in the vilayet of Monastir. One report says 60,000 persons were slaughtered in the district of Leren alone, which is purely Bulgarian. Other reports affirm Turks burned Christian quarters in three towns, Flerina, Okhelda and Resen.

Courier dispatches received here by the Autonomye say Albanians, acting under direct orders from the sultan have been engaged in a general massacre of Bulgarians in the districts of Okhrida and Leren.

FRANCE TAKES ACTION.

Paris, Sept. 12.—After a conference between officials of the marine ministry and foreign office it was decided to send the cruiser La Touch Treville to Turkish waters without waiting for another ship of the French squadron ordered to be in readiness to sail for Levant. The La Touch Treville probably will be followed immediately by the cruiser Duchayla. Their special points of observation will be Salonica and Beirut, Smyra, but they will not go directly to these places. The warships will rendezvous as a small Greek island off Syria off the coast and within easy steaming distance of the disturbed districts. Admiral J. Euregalberry and the flagship will remain at Toulon ready to reinforce the two cruisers with a large naval force in case of more serious turn of events.

FIVE MEN DROWNED.

Charletvoix, Mich., Sept. 12.—Five men, all of East Jordan, were drowned in Pine lake to night in a collision between the steam yacht Pilgrim and a naptha launch. The dead: R. T. Ine, M. C. According to a report the launch showed no lights until just before it was struck by the Pilgrim, which was then so close it was impossible to avoid the collision.

OWES HIS LIFE TO A NEIGHBOR'S KINDNESS.

Mr. D. P. Daugherty, well known throughout Mercer and Sumner counties, W. Va., most likely owes his life to the kindness of a neighbor. He was almost hopelessly afflicted with diarrhoea; was attended by two physicians, who gave him little, if any, relief, when a neighbor, learning of his serious condition, brought him a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, which cured him in less than twenty-four hours. For sale by all druggists.

EXTRA SESSION

Will be Convened November 9th—October Session Abandoned.

Oyster Bay, Sept. 12.—After mature consideration and consultation in person and by mail with members of both houses of congress President Roosevelt has abandoned the suggestion congress be called into extraordinary session in October. The extraordinary session will be called, according to present plans, on Nov. 9, which, was the date tentatively fixed some time ago. The idea of a session in October was opposed particularly because it would oblige senators and representavise to leave their states and districts in the midst of a campaign, which to many of them and to their party, was of vital importance. Nothing definite has been reached as to the character of financial legislation, which may be enacted at the approaching session of congress. It is not certain an agreement can be reached between the two branches of congress whereby special legislation can be enacted. It may be a solution of the problem will be reached before convening of the extraordinary session, but even that is by no means assured.

The Murderer of William Brandt Captured Near Belleville.

St. Louis, Sept. 12.—William A. Hoffman, who shot and killed William Brandt, his father-in-law, near Maysville, Ill., Thursday, was captured this afternoon a short distance north of Belleville, Ill. Hoffman surrendered without making any resistance. A visit to the home of his brother in Belleville led to apprehension of the murderer. Police were informed by a neighbor that Hoffman had been seen at his brother's home, but when officers got there he was not to be found. Later deputy sheriffs overtook Hoffman on the road and ordered him to throw up his hands. He did so, and was taken to the Belleville jail. Hoffman talked freely of his crime, glorying, it is said, in what he had done.

COMBINE OF CANDIDATES

Illinois Aspirants Enter rInto Offensive and Defensive Compact.

Chicago, Sept. 12.—A triple alliance, including three of the most prominent candidates for places on the state ticket, is rumored and there are elements of plausibility in the story. The candidates said to have entered into an offensive and defensive alliance are:

Col. Frank Lowden, candidate for governor.

W. H. Stead, of LaSalle county, candidate for attorney general.

Maj. Daniel Hogan, of Mound City, candidate for secretary of state.

The Lillian Mortimer Co., that comes to the Grand next Wednesday, is a strong and well equipped organization catering to the ladies and children. The opening bill will be 'Lizbeth From Hickory Hollow, full of good specialties. Up-to-date plays must not be all serious if they are to find popular favor; that is why the managers of this company have such a lot of good specialties between acts. Manager Veronee is providing entertainment for the American public, knows his patrons well enough not to offer them all solid farce; he knows that they demand some effervescent humor with a spice of novelty in it, in addition to the powerful plot; so those who love fun as well as a strong plot will find both in the play Wednesday night. Ladies admitted free when acompanied by a person holding a reserved seat ticket.

CLOSES FOURTH YEAR'S WORK

To day closes the fourth year of the pastorate of Rev. A. L. T. Ewert at Centenary church. The year has been a notable one, in that the new pipe organ was placed in and paid for through the special effort of the pastor. Quite a number of new members have been received into the church during the year. The Methodist church removed the limit some years ago, and hence a preacher may now remain beyond his old limit, which Rev. Mr. Ewert has done already. It is the wish of his host of friends that he may return for the fifth year. He will preach his closing sermons for this conference year to day.

A DESIRABLE LINE.

The Nickel Plate road, with its eastern connections—the Delaware, Lackawanna & Western and West Shore and Boston & Maine railroads—is considered by those who have patronized it as a most desirable line between Chicago and New York, Boston and other eastern points, and takes its place among the first class lines leading eastbound from Chicago. It is operating three through first class trains, all daily, and equipped with modern improvements, for the convenience and comforts of the traveling public, and has succeeded, to a remarkable degree, in pleasing its patrons, growing in popularity every day. One of its attractive features and thoroughly appreciated by the traveling public, is its dining car service, meals being served on American club plan, ranging in price from 35c to $1; also service a la carte. Colored porters are in charge to look after the comfort of passengers in coaches, and especially to assist ladies traveling with children. No excess fare on any train on Nickel Plate road. All passenger trains arrive at and depart from the LaSalle street station, Chicago, the only passenger station in Chicago on the elevated loop. When going east, try the Nickel Plate road. READ THIS.

Jacksonville, Ill., Sept. 25, 1902.—Nearly three years ago, with a second attack of serious illness, I was surprised to learn that I had diabetes. Providentially I was led to procure a bottle of Dr. E. W. Hall's Texas Nut Kidney and Bladder Trouble, known as a TEXAS WONDER. Less than half of the $1.00 bottle effected a complete and permanent cure. Consequently I believe it to be a medicine of very great value. L. E. Kahl, Evangelist.

FOUND UNKNOWN CORPSE

Was Lying in the Weeds by the Roadside.

Jerseyville, Ill., Sept. 12.—The corpse of a fairly well dressed man was found yesterday lying in the weeds by the roadside near McClusky, a village five miles south on the C., P. & St. L. railway. An inquest was held by Coroner J. S. Williams and the remains brought here by Jacoby Bros., undertakers, at whose place of business the body now lies, awaiting identification. The man was five feet, nine or ten inches and probably weighed 150 to 160 pounds; body round and small; features generally regular and prominent; nose large and uneven, with a fair sized mole on the right side near the upper lip; face closely shaven, with a two or three days' growth of beard, slightly tinged with gray; eyebrows thick and recently trimmed; lower teeth in front capped with gold. There are no evidences of violence. His clothing is good, the coat and vest tailor made and slightly mixed, the trousers striped, white standing collar and dark necktie.

SCHOOL BOOK LISTS CAN BE FILLED COMPLETELY, EITHER NEW OR SECOND HAND, AT LEDFERD'S BOOK STORE.

One of the most important requirements in a medicine to be given to small children should be that it is pleasant to take. Bad tasting medicines disturb the stomach, destroy the appetite and it is extremely difficult to get children to take them. The pleasant flavor of Re-Go Tonic Laxative Syrup, the certain cure for dyspepsia, constipation and biliousness, pleases the most sensitive persons and is the ideal laxative for young children. 25, 50c and $1 bottles sold by Lee P. Allcott, druggist.

SO SOOTHING

Its Influence Has Been Felt by so Many Jacksonville Readers.

The soothing influence of relief
After suffering from itching piles,
From eczema or any itchiness of the skin
Makes one feel grateful to the remedy.
Doan's Ointment has soothed hundreds.
Here's what one Jacksonville citizen says.

Anthony Ward, of 103 North Main street, says: "For fifteen years I was troubled with a severe irritation on my body and nothing I employed brought good results until I procured Doan's Ointment at Dr. H. Lee Hatch's drug store and used it. The effect was prompt and in a short time the trouble was removed. I had also sufferde from eczema on my forehead and although I treated for it with physicians they could do it no good. A few applications of Doan's Ointment entirely removed it. This reliable preparation is a true specific for skin diseases."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

William Krona Claims Damages for Treatment Received at Hands of Osteopath.

William Krona, of Virginia, was in the city Saturday. He has just recovered from an operation performed upon him in Springfield. Krona received treatment from an osteopath last fall and claimed that the treatment was so severe that one of his ribs was broken. He was taken to Springfield and an X-ray machine used, but it was claimed by the doctors who examined him that none of his ribs were broken and that his injuries were imaginary.

Krona was not satisfied with their diagnosis and was suffering so intensely that he consulted his former family doctor in Virginia, who declared he had a fractured, or broken rib. He accordingly brought suit against the osteopath who treated him in the Sangamon county court and the case will be heard this fall.

When Krona was operated upon about six weeks ago it was found that one of his ribs had been broken and was in such a decayed condition that four inches of it had to be removed.

NEW STYLE LAMP.

Ernest Frost has taken the agency for the Zenith incandescent lamp, manufactured by the Electric Appliance company of Chicago. The Zenith is a new type of incandescent lamp, designed to meet the demand for an intermediate illuminant. It is between the arc and incandescent lamp, equal in durability and simplicity to the reguar incandescent lamp. It is used on either direct or alternating current circuits and is of high efficiency and low cost. The lamp proper is sand blasted, giving a frosted appearance and producing a soft, white light. Fittings for the Zenith lamp adapt them for use on any style pendant bracket or electrolier. The lamp is low in price, high in efficiency, simple in construction and of long life.

Great complaint is made by shippers after every heavy rain of the mud hole that exists south of the Wabash freight depot. A NATURAL RESULT.

It is very reasonable to suppose if the foundation of a structure was removed that the building itself is bound to come down. This same principle can be applied to disease. Take remove the cause of sickness, and the illness leaves of itself. Dyspepsia, Indigestion, sickheadache and biliousness have their foundation in stomach disorders. Remove this weakness and the other symptoms are no more. There is one cure for this that all druggists sell for 25c per box, it is called Dr. Gunn's Improved Liver Pills. They get right at the beginning of these diseases and make the cure by taking away the cause of it. We will send a small box free by mail, or a large box on receipt of 25c. Address Dr. Gunn, Philadelphia, Pa.

SURPRISED.

Since the children have been away Mr. Bealmear has added a second story to his home and made other extensive improvements, and last night when the children arrived at the Bealmear farm they were at a loss to know what had become of their old hme. Their surprise was considerably magnified when they were shown upstairs, where two handsomely furnished rooms were awaiting their occupancy.

The first three months of this year 300 people were killed and 2,834 injured in train accidents. Other kinds of accidents, including those sustaned by employes while at work, run up the total casualties to 827 killed and 11,481 injured. That these accidents cannot be put down entirely to the fault of the passengers and employes themselves is shown by the fact that during the quarter under consideration, 1,650 trains were in collision and 1,181 trains were derailed.

Henry Oakes, the well known capitalist of Bluffs, was transacting business in the city yesterday. He says there is considerable corn being cut in his neighborhood and the general prospect is good.

UNION LABEL

WHO WE TRADE WITH.

The contrast between the extent and volume of our commerce in 1903 and that of 1893 is illustrated by sound figures just presented by the department of commerce and labor, through its bureau of statistics. These figures show the imports from and exports to each of the grand divisions of the world in 1893 and in 1903, and thus show at a glance the growth during the period so covered. They show that imports have grown from 866 millions to 1,025 millions, an increase of 159 millions, and that exports have grown from 847 millions to 1,420 millions, an increase of 573 millions. They show that ninety-two millions of the increase in imports comes from Europe, fifty-five millions from Asia and about five millions each from North America, South America and Africa. The figures for Oceania show an apparent falling off of about five millions, but this is due to the fact that the merchandise brought from Hawaii is no longer classed as imports, Hawaii being now a territory of the United States. If this were included in the figures of imports in 1903, it would show a growth of imports from Oceania of about twenty millions.

On the export side the showing is equally interesting. Of the 573 millions of increase, 367 millions was to Europe, ninety-four millions to North America, forty-one millions to Asia, thirty-three millions to Africa, twenty-six millions to Oceania and eight millions to South America. In case the shipments to Hawaii were included, the increase to Oceania would be about thirty-six millions. In case those to Porto Rico were included, the increase to North America would be over 100 millions.

Even more interesting is a little table which shows the gain in exports to each of the principal countries of the world. This table includes only ten countries, yet to these were sent 1,159 million dollars' worth of the total exports of 1903, leaving only 261 millions sent to all the other countries. The ten countries, stating them in the order of the magnitude of the exports to them, are United Kingdom, Germany, France, Netherlands, Belguim, Canada, Mexico, Chian, Japan and Australia. To Germany the exports show a growth of 110 millions from 1903 to 1903; to the United Kingdom, 103 millions; to Canada, seventy-seven milions; to Netherlands, forty millions; France, thirty-one milllions; Mexico, twenty-three millions; Australia, twenty-two millions; Belguim, twenty-one millions; Japan, seventeen millions; China, fifteen millions, and to all other countries, 112 millions.

Y. M. C. A. NOTES.

We are pleased to announce to our friends and members that Mr. A. J. McCauley, chief draughtsman at the C., P. & St. L. shops, has been secured as instructor in mechanical drawiwng for the evening school of the association. Last winter a young man took up the course and during the summer was able to do enough draughting to more than pay his tuition, doing this work after his regular daily work was done and to day he is following that profession and making twice the salary his former position paid. The demand for men in this one line alone is greater than the schools can supply trained men for and every young man will do well to consider this course and thereby secure a splendid position soon.

Dr. L. A. Reed will speak at the men's meeting at 4 p. m. upon the subject, "The Golden Calf." Mrs. L. M. Towne, of Minneapolis, will also recite "Ole Bull's Story" at the same service. Mrs. Towne has filled many engagements in Iowa and Minnesota, and a rare treat is in store for all who hear her at this time. Every man in the city will be cordially welcomed.

HONEST VALUES AT LEDFERD'S.

MRS. PRINCE INJURED.

Springfield, Sept. 12.—Mrs. John Prince of South Fifth street was injured last night at the state fair grounds, while riding with her husband others in an automobile. A guy rope, used to support a derrick at the Women's building, in course of construction, was stretched across the roadway, and Dr. Prince ran into the rope in the dark. The rope caught Mrs. Prince and she sustained several bruises.

Dr. Prince was unable to stop the machine in time to prevent the accident. Mrs. Prince was taken to the Sangamon club house on the fair grounds, where restoratives were administered, and after a time she was taken to her home. It is not thought that her injuries will prove serious.

The derrick was torn down, but little damage resulted.

AT THE ACADEMY

Extensive Changes in the Building—Work of the Year.

Work at the Academy building is progressing rapidly and everything will soon be in order for the opening of the school year. Quite extensive repairs and alterations are being made. The chapel, which will serve as a conservatory hall, is to be restaged and reseated.

The south rooms on the first floor, which were formerly used for recitations, have been fitted up for a dining room, large plate glass windows being put in to the south. The kitchen, just below, has dumb waiters running to the butler's pantry, and all modern appliances. The intelligent and careful interest taken in this part of the menage by both dean and matron, promises wholesome and substantial fare.

The rooms formerly used for dining room and kitchen will be suited for work in domestic science, the latter for practical cookery and the former for lectures and demonstrations.

It is hoped that Woman's clubs interested in this line of work may avail themselves of the privileges which the Academy hopes at no distant day to be able to offer in this department.

The parlors have been thrown together by large arch ways, making them more readily available for large gatherings. Hard wood floors have been laid, wood work refinished, and walls freshly decorated. The furnishing of these rooms has been undertaken by the academy alumnae, whose substantial interest is most gratefully appreciated. Generous gifts have been received from non-resident members, as well as from those whose homes are in Jacksonville.

The outlook for the year, so far as attendance is concerned, is very encouraging. Old pupils are coming back and new ones are being enrolled rapidly. A kindergarten, for which already a number of pupils have been entered, and also an intermediate department, under one of the most advanced teachers, will be carried on in Academy hall.

All old pupils ready for the senior work this fall have been promised the academy diploma at the end of their year's work, if they wish it just as they would have received it under the old regime. Nearly all are asking for it. The studies will be somewhat different, but will credit them with an equal number of points in the college course.

Boarding pupils will be under the personal supervision of Miss Sherzer and the efficient corps of teachers, who are to reside in the building. All the young women above the fifth grade, both boarding and day pupils, will go up to the college buildings for recitations. They will attend the regular morning chapel exercises in Memorial hall and during such time as they are not engaged in class, will be in their own comfortable study parlors, with Miss Hurd, college librarian, as chaperone.

Too much cannot be said in praise (commendation) of the strong and enthusiastic woman, whom the college has been so fortunate as to secure as its dean of women. The years of sustained and vigorous effort which she has put forth to secure her degree have only served to emphasize that sense of the ewig weiblicke, which all the world demands as an essential of perfect womanhood.

Not only may the mothers who place their daughter under her care rejoice that they have before them daily so fine a type model, but the women of Jacksonville may feel justly proud to welcome to their numbers one who stands as a representative of the highest ideal of intellect and culture.

We are proud of our second to none lines of new fall shoes for women, misses and children. E. S. VANATTA & Co.

OBITUARY.

Rev. Henry A. Booth was born in New Town, Conn., July 13, 1817, and died in Santa Ana, Cal., July 27, 1903. He came west at an early age, and learned a trade in St. Louis, Mo. By industry and economy he acquired sufficient means to meet the expense of an education for himself, and also to assist a younger brother in his education. He took his literary course at Miami university, Oxford, Ohio, and his theological course at Princeton, N. J.

His parents were members of the Protestant Episcopal church; but in St. Louis he came under the influence of Rev. Dr. Potts, one of the Presbyterian pastors of that city, and was converted and became a member of that church. Dr. Potts took a deep interest in the young man, and under his influence he began a course of preparation for the ministry.

He began his ministry at Bonhommie, St. Louis county, Mo., and continued in charge of that church thirty years. After leaving that charge he preached at several others points in the state, but had no regular pastorate. In 1885, after a slight attack of paralysis he came to California, settled in Santa Anna and resided there till his death.

He had no regular pastoral charge after coming to this state; but while his health permitted was always ready to supply vacant pulpits, as opportunity occurred. His preaching was always acceptable. His ministry was Biblical, evangelical and earnest, and was always edifying to those who sought "the sincere milk of the word." Those who sat under his ministry in the days when he had a regular charge testified warmly to the able and edifying character of his pulpit utterances.

His character was aptly summed up in the three passages of Scripture suggested by members of the family as appropriate to his funeral service. These passages were special favorites with him. They were: (1) The 23d Psalm, "The Lord is my shepherd"; (2) "Blessed are the pure in heart"; (3) "Let me die the death of the righteous and let my last end be like His."

The speaker on the occasion of the funeral said: "These passages describe the character of Bro. Booth more accurately that any words of mine could do. He had submitted to the leading of the Good Shepherd. He found it a blessed leading. He was conducted into green pastures and beside the still waters. His soul was restored. He was led in paths of righteousness. Where the 'valley and shadows of death' must be passed, he feared no evil. He experienced the comfort of the rod and staff. He was so led and so influenced by the Good Shepherd that he became 'pure in heart.' Those who knew him best testify to the purity of his speech and life. Impurity found no favor with him. And being made pure in heart he had a vision of God. He could see God in all the events of life. n Ad just before his spirit left the body he seemed to have a glimpse of the glory beyond. The mind which had long been clouded by disease became clear. His eyes lighted up with a vision which was evidently not of earth. And now he sees God face to face, 'And tells the story saved by grace.' And so his prayer that he might die the death of the righteous was answered. In deep personal bereavement he had once preached a sermon on that text. And those who witnessed his pure life and peaceful death can say:

'How blest the righteous where he dies;
Where sinks a weary soul to rest;
How mildly beam the closing eyes;
How gently heaves the expiring breast.'"

Uncle Sam is carrying on a pretty large business. His receipts from all sources during the year just closed were $558,887,525.87, and his expenditures $506,176,590.31, leaving a surplus of $52,710,935.56. A profit of a million dollars a week is pretty good, even for Uncle Sam. And it is a very big and proseprous country that can pay the federal tax gatherer more than half a billion dollars in twelve months and not feel it. Omitting Sundays and holidays the government has been taking in almost exactly $2,000,000 a day during the last year.

For comfort, good service and low rates patronize the Nickel Plate road. Good road bed, splendidly equipped trains and first class dining car service, meals being served on American club plan, ranging in price from 35c to $1.00; also service a la carte. Three through trains daily, in each direction. Rates always the lowest. No excess fare on any train on that line. Chicago ticket office, 111 Adams St. Depot, LaSalle street station, corner VanBuren and LaSalle streets, on the elevated loop.

MATHENY & LLOYD.

(By Associated Press.)

Chicago, Sept. 12.—Wheat—Heavy rains throughout the northwest and Manitoba was an influence in wheat ,causing a strong early tone. December opened ¼@½c higher, at 81½c to 81¾c, and after a temporary dip to 81⅜c on selling by local traders with profits continued to advance under covering by shorts and buying by houses with southwest connections to 82c. Offerings very light; only marked absence of outside business prevented greater gain in hauls. Trading largely professional with local traders take profits on bulges. Some selling of this nature caused the market toease off from the top just before the close, final figures being a shade lower, 81⅞@82c, a gain of ⅜@¾c. Liverpool steady to ⅜d lower. On coast five boat loads taken.

Corn—Corn was firm with small offerings and good demand from shortholders who covered freely on prospects of frost west. Trade rather quiet, however, commission houses doing a greater part. December opened about steady at yesterdays close, sold up to 50½c, closed firm at 50⅜c, a gain of ¼@⅜c. Liverpool ⅜@½d lower. At seaboard three boat loads accepted.

Oats—Were active and stronger, with closing sales at the best prices, at gains of ⅛@⅜c. Strength came from general buying and in sympathy with other grains. There were heavy rains in northwest and moderate receipts. Close was steady with gain for December of ¼c.

FINANCIAL MARKET.

New York, Sept. 12.—Trading during to day's brief session of the stock market was so light and otherwise commonplace as to call for little comment. Only slight response was made to London, which reported better prices for our securities, especially Pacifics and grangers, the features over there being Union Pacific and St. Paul. Even steel stocks were easier abroad. From the outset here the market was narrow and irregular, early quotations showing advances and declines in about equal proportion. St. Paul alone exhibited firmness at the opening, although a higher tone was shown by such issues as Pennsylvania and Reading.

Closing quotations:
Money on call nominal.

An unsurpassed millinery display at Herman's grand fall opening Sept. 28 and 29.

It is admitted by the best writers on theatrical matters that the most successful play of to day is the character play—in other words the play which introduces the most absolute natural characters. Because "The Stain of Guilt" introduces a half dozen of these characters is one reason why it is so successful. Of the half dozen two are absolutely real—that of Rube Waddell as the base ball player and John Rucker as the negro attendant. At the Grand, Tuesday, Sept. 15.

The constantly increasing business compelled Hermans to engage four trimmers this season and it is safe to say they are among the best in the land.

LOST—Saturday, pointed silver pin, large as half dollar. Reward for return to this office.

A FINE WINDOW.

Vincent F. Barbaro, of Springfield, a nephew of P. Bonansinga, of this city, is gaining quite a reputation as a window decorator. A Springfield paper in mentioning one of his windows said recently: "Many attempts have been made by progressive business men to decorate their show windows for various occasions, but the one who has eclipsed anything seen in the capital city is that in the window of Bonansinga Bros. It represents the seat of the American Federation of Labor, with some special features applying to Labor day of 1903."

L. C. & R. E. Henry will have something new to show you every day in trimmed hats at the lowest prices.

A full corps of experience workers are preparing opening hats at Lonergan & Smith's.

School supplies; Ledferd's.

COMING TUESDAY.

Rube Waddell, the celebrated pitcher of the American league, will be seen in the forthcoming presentation of Caren & Havlin's "The Stain of Guilt." His appearance in the play shows how base ball players can keep themselves employed during the winter months, both to the edification of the public and with profit to themselves. Waddell will play an original part in "The Stain of Guilt," which will shortly be seen in this city, for which he draws the princely salary of $500 a week. At the Grand Tuesday, Sept. 15.

SCHOOLS WILL OPEN MONDAY

Supt. Webster Addressed Teachers Saturday—List of Instructors.

A general meeting of the teachers in the city schools was held Saturday afternoon and Superintendent Webster made an address of a helpful and inspiring kind. He spoke particularly of the relations of pupil and teacher. "There should be more than a feeling of duty on the part of the pupil, a deep-rooted interest and between pupil and teacher there should be a deep sympathetice interest. The teacher needs to endeavor to inculcate loyalty to truth; a thirst for knowledge; sympathetic relations with one's fellows, and studious habits. The homes of the pupils can be influenced through them. The ends desired can be brought about by the personal influence of the teacher, either natural or acquired." Superintendent Webster urged the teachers to strive for the relations between them and their pupils, which are the most to be desired. After this session the teachers met their principals and talked over the subject matter suggested by Superintendent Webster Thursday.

As already announced the schools are to open to morrow morning. The attendance in the three upper classes of the high school will be the greatest in the history of the school. The freshman class, though large, is not so numerous as last year. The senior class this year will number about fifty and it is expected that the class of 1904 will be the largest ever graduated.
